

JTP GROUNDWORK Technical Assistance

As part of the European Green Deal, the European Union set up the Just Transition Mechanism to ensure the transition towards climate neutrality happens in a fair way. JTP GROUNDWORK supports regions on the ground to implement their Territorial Just Transition Plans and use the Just Transition Fund effectively.

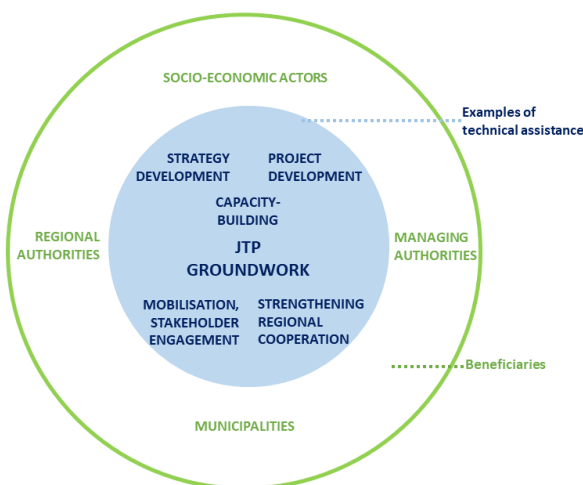

JTP GROUNDWORK – Overview

JTP GROUNDWORK is a service delivered by the Just Transition Platform (JTP). The platform, set up by the European Commission, provides a single access point to expert knowledge and support for EU regions which receive funding from the Just Transition Fund.

JTP GROUNDWORK works with regions where the transition to a sustainable economy is particularly demanding. Via JTP GROUNDWORK, the European Commission provides capacity-building support to regions to implement their Territorial Just Transition Plans (TJTJs), which define how they will use the funding.

JTP GROUNDWORK delivers tailored support, based on the needs that regions have identified.

How JTP GROUNDWORK supports regions in transition

Services JTP GROUNDWORK offers

The Commission and beneficiaries jointly define the scope and type of support within JTP GROUNDWORK technical assistance. Support is based on the principle of co-creation – solutions are evolved with beneficiaries to increase ownership.

JTP GROUNDWORK also facilitates events, including scheduled dialogues, meetings, site visits and workshops.

JTP GROUNDWORK provides

- Project identification and development
- Capacity building for regional and local administrations and other stakeholders
- Support for transparent, inclusive, and efficient governance mechanisms for TJTJ implementation
- Stakeholder engagement and mobilisation
- Awareness-raising campaigns and communication strategies
- Support to engage in cross-border cooperation
